Inside Earth WebQuest: Worksheet

Part 1: Earth's Interior

Site 1

How is Earth's interior like an apple?

The lithosphere is divided into 2 parts (or crust). What are they called?

What is the thickness of each part?

What are these parts primarily made up of?

Site 2

Name the five layers of the earth in order from the outside to the center of the earth.

What causes the mantle to "flow"?

What are the two main metals that make up the outer and inner core?

Describe in your own words how the earth's layers were formed. (Slide 2 will help you.)
